

Good evening Committee Members:

I am writing to you as a constituent located at 120 Raffia Rd, Enfield, CT 06082, and asking that you support and pass HB 5104 for the protections of wildlife, and to inhibit transport and sale of animals and animal parts in CT.

We are, or should be far beyond the days of supporting the interference and profoundly negative impact on wildlife for the sport of it. We have seen species upon species go extinct because of man's interference in their world. Sport hunting is not a necessity in any sense and is, quite frankly completely unnecessary other than for ego and for lack of compassion for the animals that have every right to their own autonomy and freedom from harm.

Please support and pass HB 5104 and help continue to bring Connecticut into a leading force for humane ways and helping to stop the slaughter of innocent animals for "fun"!

Thank you.

Karen F. Warner
